

## MAGNIFYING TASK LIGHT (LMG-2230)

Magnifier with 45" arm length, a 3-diopter lens and a table/desk base mount.

LMG-2230 has a heavy-duty, all-metal construction with a sleek design, adjustable arm and excellent light output making it suitable for a variety of industrial applications.

### Excellent optics

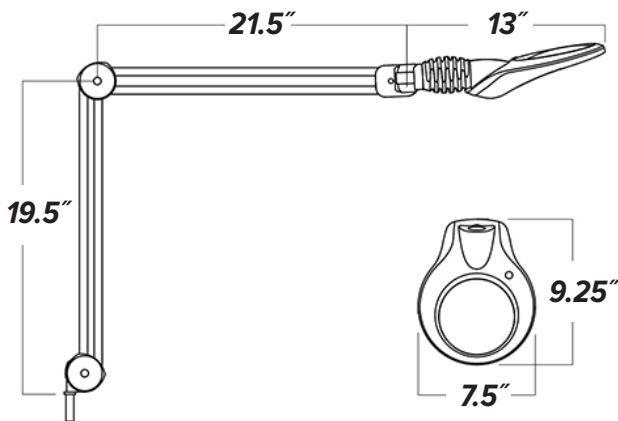

A 5" diameter optical-quality glass lens combined with powerful LED light-source, makes LMG-2230 one of the best multi-purpose heavy-duty round lens magnifier on the market today. The quality and exact positioning of the LEDs allows for virtually shadow-free magnification and excellent color rendering.

### Maximum flexibility and precision

No knobs to tighten, nothing to adjust. A flexible, self-balancing shade and hands-free neck design allow the lamp head to be secured in any position. The spring-balanced arm provides maximum vertical and horizontal movement, and will always stay in the right position without drifting.
