

3" SWIVEL PLATE CASTER WITH BRAKE

Swivel casters with 3 inch thermoplastic rubber wheel featuring Total Lock braking and zinc plated finish. Total Lock brake solidly locks both the swivel and wheel, providing an exceptionally sturdy base when engaged.

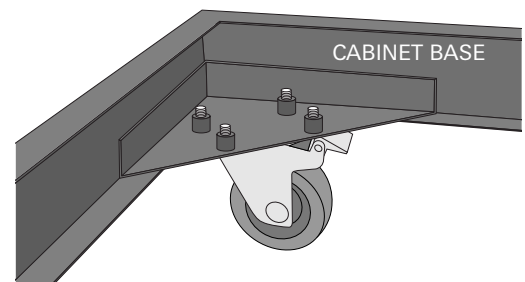

Wheels roll smoothly with integrated ball bearing design. The thermoplastic rubber wheel performs well on most surfaces, and excels on hard surfaces like tile and wood. Unlike black rubber wheels, they will not mark or mar floor surfaces.

SPECIFICATIONS

Wheel Size:	3"
Top Plate Size:	2 1/2" x 3 5/8" with ball bearing swivel
Bolt Hole Pattern:	1 3/4" x 2 7/8" to 3"
Mounting Height	4 1/8"
Capacity (per caster):	210 pounds

The 3" Swivel Plate Caster is used for Mobile Teclab Base Cabinets. It is attached to each corner of the base using a heavy-duty bracket.
